A Digital Recipe Book

A project by:

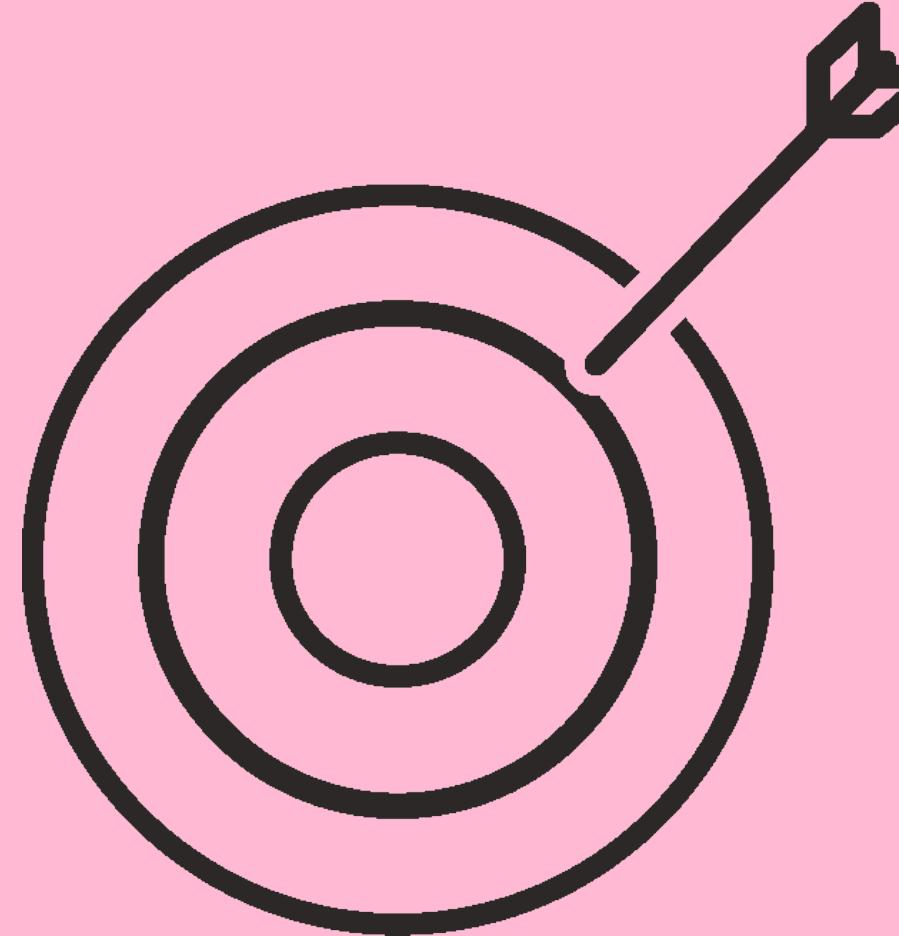

Yashasvi Choudhary

Sudiksha Kadam

Why go digital?

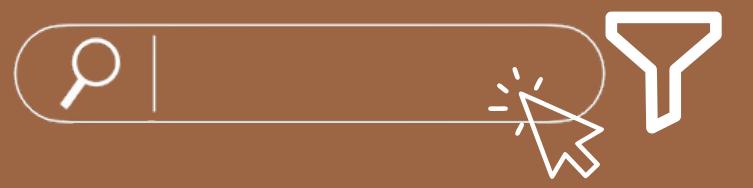

- ✓ Convenience: Access your favorite recipes anywhere, anytime
- ✓ Organization: Sort, search, and filter recipes based on various categories like cuisine, ingredients, or meal type.
- ✓ Personalization: Create your own collection and even share with friends or family.

Bring home cooks, food bloggers,
culinary students or anyone interested
in organizing their recipes digitally

Demo

The screenshot shows a web browser window with the title "RecipeLove" and the URL "D:/mini%20project/home.html". The page has a light beige header with a circular logo containing a stylized spoon and fork, and the text "ANYONE CAN COOK!". Below the header is a navigation bar with a search bar, "Get Started", "Log In", and "Sign Up" buttons. A large banner in the center features a dark background with various food items like a bowl of pink soup, a plate of eggs, and a salad. Overlaid on the banner is the text "Welcome to RecipeLove! Find what you love, Make what you love!" in white. Below the banner is a section with the text "Gourmet made simple and fun" and a "Find what you crave" button. A dropdown menu is open over the "Meals" button in the navigation bar, listing "Breakfast", "Snacks", "Lunch", "Brunch", "Dinner", "Desserts", and "Drinks".

Gourmet made simple and fun

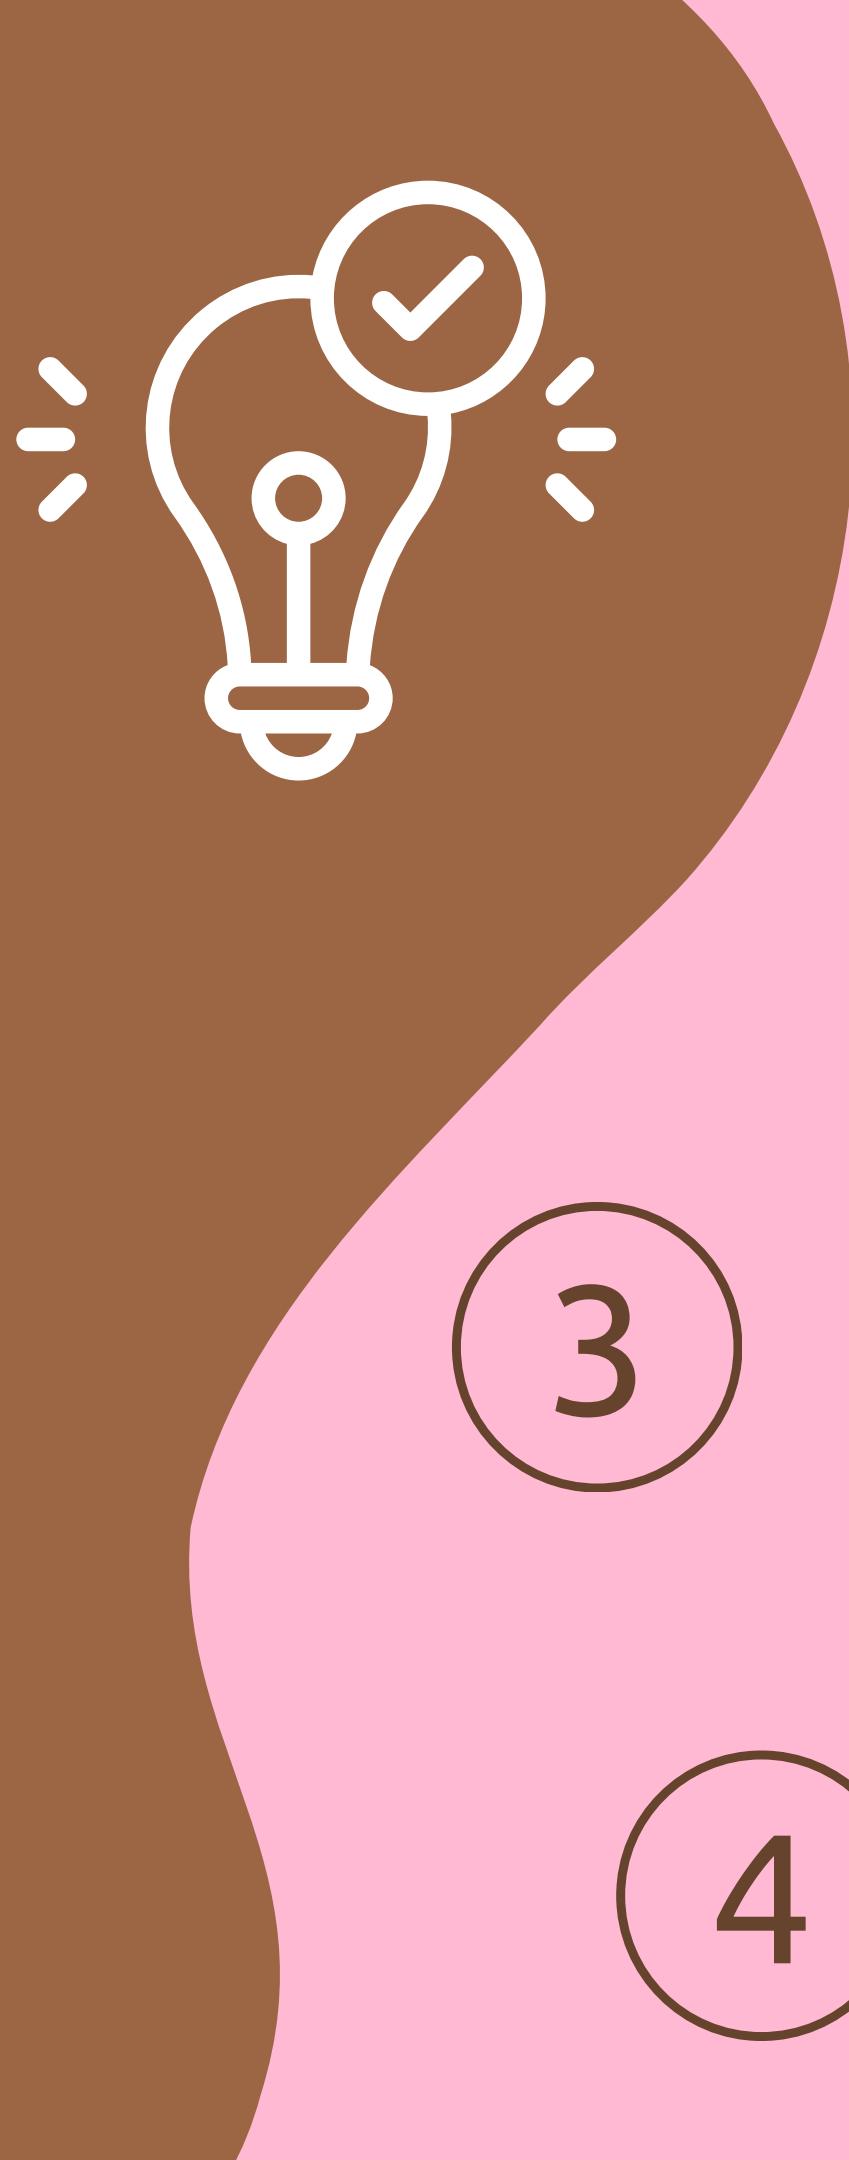

Find what you crave

Future Improvements

- Ensuring layout adapts well to different screen sizes
- Personalized recommendations
- Multilingual support
- Community Engagement

1

**Ever-growing collection of recipes, cooking tips
and easy-to-follow instructions**

2

**Explore new cuisines, improve their cooking
skills, and adopt healthier eating habits**

3

**Repository to preserve culinary traditions, making family
recipes and regional cuisines available to a global audience**

4

**Encourages sharing, feedback, and interaction,
fostering a community of food enthusiasts**

Thank You!
